If you've been looking to revisit some classic games, here's a deal you won't want to miss. The beloved original Xbox game Psychonauts, released in 2005, is now available for just \$1.99 on the Microsoft Store. This offer is part of Black Friday and Cyber Monday promotions, with an 80% discount making it an unmissable deal. But hurry, this price is only available until December 3, so act fast!

2005 was a monumental year for gaming, with titles like Resident Evil 4, God of War, Shadow of the Colossus, Guitar Hero, Forza Motorsport, Grand Theft Auto: Liberty City Stories, and many more hitting the shelves. While those games remain iconic, none are priced at \$2 on the Microsoft Store—except for Psychonauts. This quirky platformer, developed by Double Fine Productions (now part of Xbox), remains one of the standout releases of that year, earning praise for its creativity and charm.

Psychonauts is available for backward compatibility on Xbox One, Xbox Series S, and Xbox Series X, allowing newer-generation players to experience the cult classic. The game earned a Metacritic score of 88, selling millions of copies and gaining a dedicated fanbase. The 2021 sequel, Psychonauts 2, further cemented the series' place in gaming history.

In case you're unfamiliar with it, Psychonauts follows the story of Razputin, a young psychic who dreams of joining the Psychonauts, a group of elite psychic secret agents. To prove his worth, he sneaks into their secret training camp, Whispering Rock Psychic Summer Camp, only to find things aren't what they seem. When a mysterious villain kidnaps Raz's fellow campers and steals their brains, Raz must use his psychic powers—such as telekinesis, levitation, and mind projection—to save the day. Throughout his journey, he faces mental demons, uncovers hidden memories, sorts emotional baggage, and dives deep into the fantastical world of the human mind.

If you're a fan of imaginative platformers with a quirky sense of humor and a unique art style, Psychonauts is an essential experience, and at just \$1.99, it's a steal. Don't miss out on this limited-time offer!
