

## ARC Raiders Riven Tides Is Rewriting Trials

Autor: abnerRRR - 2026/04/30 03:46

---

With the release of ARC Raiders Riven Tides, the official determination to bring about multifaceted changes to the game is evident. Last week's changes focused on Expeditions, and this week's focus shifts to Trials!

As we all know, Expeditions and Trials are fundamental features of ARC Raiders, and only through thorough optimization and design can true transformation be achieved!

Understand the comprehensive overhaul of the Trials system to ensure you can smoothly and efficiently complete your weekly Trials after the Riven Tides update goes live.

By the way, if you're looking for a safe and reliable ARC Raiders trading platform, IGGM.com is definitely your best choice for 2026.

Most ARC Raiders players choose IGGM because it offers a huge variety of items — from rare materials, Blueprints, and weapons to various misc items — all delivered fast, securely, and at the lowest prices.

Understand the comprehensive overhaul of the Trials system to ensure you can smoothly and efficiently complete your weekly Trials after the Riven Tides update goes live.

ARC Raiders Radical Trials Overview:

Every week, players complete five rotating objectives to earn trial points based on performance. The better you perform, the higher your rating and rewards, with the goal of achieving a three-star completion. There's also a leaderboard where players compete for extra loot and exclusive cosmetics.

What fundamental changes have occurred in ARC Raiders Radical Trials?

1. With the release of Riven Tides, the Trials system is entering a new cycle. Season 3 is ending at Week 8, and Season 4 begins right after. One major change is scheduling—Trials will now refresh every Wednesday on a fixed timetable, making progression more predictable and easier to plan around compared to the previous system.
2. Another important update is the removal of several old mechanics tied to map conditions and special events. Features like double-point bonuses during major events and awkward objectives tied to rare situations (like lightning storm tasks) have been removed. This makes the system more consistent and reduces reliance on luck-based conditions.
3. The developers are introducing new types of Trial objectives. These are designed to be more balanced and combat-focused, replacing outdated or situational tasks. The goal is to improve fairness and make sure all players can progress without needing specific map events or rare triggers.
4. Players earn cosmetic sets like Torque variants based on their leaderboard rank, with higher tiers unlocking more exclusive looks. Season 4 also introduces the Recon Outfit and deeper cosmetic progression tied to performance. Overall, the update makes Trials more structured, fair, and rewarding for long-term play.

Why are Blueprints so important in ARC Raiders Riven Tides?

because they're the foundation of your progression and combat power. Instead of relying only on random loot, blueprints let you craft specific weapons, gear, and upgrades, giving you much more control over your build and ensuring you can consistently improve your loadout.

They also become even more valuable as difficulty increases. With tougher enemies, new environments, and stronger threats introduced in Riven Tides, having the right blueprints means you can prepare in advance, optimize your gear, and stay competitive, rather than falling behind due to bad drops or limited resources.
